

*Unity/Religious Science – Introducing Michael*

**The Reverend MICHAEL DOWD** is one of the most inspiring speakers in America today. A gifted storyteller, evolutionary theologian, and long-time student of Practical Christianity and Science of Mind and Heart, Michael has been called “**America’s evolutionary evangelist.**”

Michael’s new book, ***Thank God for Evolution!***, has been endorsed by 5 Nobel Prize winners, and by science and religion leaders across the theological spectrum. In June 2008, both *The New York Times Magazine* and *The Washington Post* reported favorably on Dowd’s book and nationwide ministry.

For the past 6 years, Michael and his wife, popular science writer Connie Barlow, have lived entirely on the road, providing Sunday services and workshops at more than 500 churches and other organizations across North America.

Michael and Connie support their itinerant educational ministry by selling professionally produced DVDs of their best and most popular programs, along with a host of excellent books and media in the realm of evolutionary spirituality and a hopeful vision of the future.
